Petition to Save our Schools

We the undersigned residents of Kansas call upon the Governor and members of the Legislature to respect and honor their sworn oath to "support the Constitution of the United States and the Constitution of the State of Kansas", particularly section 6B of the Education clause, which reads: *"The legislature shall make suitable provision for finance of the educational interests of the state."* That which constitutes a "suitable" provision has been previously defined by the Legislature on four separate occasions. And using the criteria the Legislature itself has provided, we demand that you make the necessary appropriations to adequately fund our Public Schools. Do not balance the budget on the backs of our children!
